EDUCATION

The Pennsylvania State University | College of Engineering

B.S. in Civil Engineering, Discipline in Structural Engineering

University Park, PA

Graduated: Dec 2019

Quantic School of Business & Technology

Master of Business Administration

Graduated: June 2023

OVERVIEW & RELEVANT SKILLS

- **Overview** - Engineer with a background in structural design, construction engineering, and hands-on field experience, seven years total in construction. Self-taught residential renovations, learning plumbing, electrical, and carpentry from first principles to execute renovations. Currently building AI automation tools to streamline construction engineering workflows. Focused on execution.
- **Relevant Skills** - Structural design and analysis, constructibility design and review, AI-driven workflow automation, construction project delivery, hands-on construction experience.

WORK EXPERIENCE

Thornton Tomasetti

Project Engineer

Boston, MA

Sept 2024 – Current

- Led construction engineering design for complex structures, including Harvard's Eliot House, Massport Central Heating Plant, and the Roux Institute campus, optimizing constructability while reducing project costs and timelines.
- Collaborated with project managers, site superintendents, and fabricators to solve construction sequencing, steel erection, and temporary shoring challenges, including crane pick and erection analysis.
- Built internal tools and workflow automation (structural calculation tools, AI-assisted report drafting) to standardize and speed up repeatable engineering deliverables.

L.R. Costanzo

Assistant Project Manager / Project Engineer

Scranton, PA

March 2023 – September 2024

- Managed engineering responsibilities on a \$65M+ public transportation facility project, including design coordination, field support, and contractor oversight for a regional bus operations and maintenance center.
- Tracked construction progress against cash flow projections to provide monthly cash flow updates to the owner.
- Hosted weekly contractor coordination meetings to ensure seamless project execution. Coordinated directly with field personnel to ensure adherence to design standards and construction schedule.
- Hosted buyout meetings with subcontractors to review scope of work and negotiate contracts. Reviewed scope changes to draft and submit change orders; negotiated pricing and schedule impacts.

Reuther+Bowen

Structural Designer / Delegated Design Department Manager

Scranton, PA

May 2019 – March 2023

- Collaborated with architectural firms to design structural drawings for hospitals and healthcare facilities, higher-ed, K-12, offices, commercial/retail, industrial, residential and warehouse buildings.
